An experienced and visionary leader, Tim Thornhill is focused on the advancement of Mendocino County and the “greening” of Parducci Winery, the heart of Mendocino Wine Company. “I see sustainability as an evolution; we can always find room for improvement.”

Tim is in charge of day-to day operations, the redevelopment of the old Parducci winery into one of the greenest and community relations.

Using his site development experience, Tim has designed wetlands and ponds to recycle 100% of winery waste water. “Reduce and re-use is where we begin.”
